	GRoLTS Number	LPA Number	Checklist Item
1	3a.	1	Is the missing data mechanism reported?
2	3b.	2	Is a description provided of what variables are related to attrition/missing data?
3	3c.	3	Is a description provided of how missing data in the analyses were dealt with?
4	4	4	Is information about the distribution of the observed variables included?
5	5	5	Is the software mentioned?
6	6b.	6	Are alternative specifications of the between-class differences in variance–covariance matrix structure considered and clearly documented? If not, was sufficient justification provided as to eliminate certain specifications from consideration?
7	9	7	Is information reported about the number of random start values and final iterations included?
8	10	8	Are the model comparison (and selection) tools described from a statistical perspective?
9	11	9	Are the total number of fitted models reported, including a one-class solution?
10	12	10	Are the number of cases per class reported for each model (absolute sample size, or proportion)?
